

## Personal Injury Law

Schools and their

employees have a special relationship with their students and must act to protect them from foreseeable harm from their employees, other students, and third parties. This is especially true when the student is vulnerable because they have special needs, or because the school has been on notice of prior bullying, harassment, or other threats. School districts are also responsible if their employees cause a student harm because the employee should never have been hired or because they lacked training or supervision.

Because of our specific experience with children with disabilities, we are particularly skilled at providing representation to children who may not be able to express themselves, or who have pre-existing conditions only to have their conditions exacerbated by the trauma they experienced at school. These cases require an attorney that understands the medical and psychological issues, while at the same time navigate the complex administrative and statutory rights that are afforded to the child with a disability for the purposes of obtaining monetary damages for their injuries.

We represent our clients in cases involving:

- Wrongful death
- Bullying and harassment
- Abuse

- 
- Sexual harassment and assault
  - Corporal punishment, seclusion, and unlawful use of restraints
  - Injury or death due to negligent supervision
  - Discrimination

"They are more than attorneys and advocates for our children "

I cannot write a recommendation high enough for the Law Offices of Hirji & Chau. They are more than attorneys and advocates for our children. They really understand what our lives as parents of special needs kids are like.

Every single employee at the Law Offices of Hirji & Chau is an angel; always displaying professionalism, working above and beyond for our families, and always with kindness. Retaining the Law Offices of Hirji & Chau services ranks as one of the best decisions my husband and I have ever made.

"It was Godsend to have someone fighting for our family"

Thank you Rosa for being so amazing and successful! We are so grateful our case settled with our goals met. As most parents of special needs child, we were exhausted and hopeless. It was Godsend to have someone fighting for our family. It was such a different experience to have you help us negotiate what our daughter needed and could expect to receive, rather than trying to figure it out on our own.

"I am extremely grateful"

The expertise that Jenny has in special needs children helped us to get the appropriate school placement and compensatory services to make up for what he had been denied. Her professionalism, knowledge and confidence during all of the proceedings were a constant.

Also, it was a great help to talk to a person who understood the needs that my son has and responded very quickly to my questions or concerns. Without Jenny to guide us and fight for my son, he would never have been able to obtain the appropriate educational setting and services that he is entitled to but the district had not provided to him. I am extremely grateful.
